Allowable Subject Matter

1. Claims 2-8, 10 and 15-22 are allowed over prior art.

The following is a statement of reasons allowance: Applicant has amended claims 15 and 19 to correct the previous 112 rejection. Although the cited art discloses transmitting/receiving of multicast protocol data associated with communicating among multiple devices via a switch and whereby protocol conversion is utilized for providing successful data transmission, the cited art does not teach wherein a protocol conversion unit rewrites a multicast address of a certain level in the received multicast message into a multicast message of another level in the OSI reference mode by use of the prefix portion of corresponding multicast address in a multicast address memory, and a second layer is GMRP, and third layer is IGMP, DVMRP, PIM-SM, PIM-DM, MOSPF, CBT or MLD of Ipv6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
